Greetings!

1992 has been a great year for us, and we're looking forward to a unique 1993. This year I led successful ascents of Aconcagua, Mt. Everest, Mts. Stanley and Speke in the Rwenzoris, and Korabe in Albania. In guiding Mt. Everest, I've become the only person ever to guide the 7 Summits! Going into my 23rd year of guiding I maintain a 90% summit ratio, certainly unmatched in the industry.

I am also embarking on a new career in public speaking. I speak at colleges and corporations about setting and achieving goals using mountaineering as the metaphor, and also at clubs and retail stores on the adventure of guiding the 7 Summits. I'm still looking for new venues for speaking, so I would like to hear your suggestions.

On the flip side you'll find our Spring-Summer '93 schedule. You will see that it runs the gamut from Arctic to Equatorial, high mountain to river gorge. Let us know which trips pique your interest and we'll send you a detailed flyer. If you have special request trips we're always looking for new ideas, and we also organize private trips on a regular basis. All of our outings put an accent on small group adventure. Our short mailing list guarantees compatable groups, and my 22 years of guiding guarantees a successful adventure.

We'll be looking forward to hearing from you!

Cheers,

Skip

Skip and Elizabeth Horner

Todd- Since Russia in '91, I've moved to Montana, got married + climbed Everest!

Here's what I've got going for this year.

Let me know if any of this interests you.

Cheers, Skip

SPRING - SUMMER 1993

GUNNBJORNS' FJELD - Greenland May 15 - 30 approx.$10,000.
Climb the highest peak in the Arctic, at 12,140'!
This is a full-on expedition of ski-mountaineering and moderate snow-climbing in the land of the midnight sun. We will be flown in from Iceland by ski-equipped aircraft and we'll be totally self-sufficient for 10 days on the Greenland icecap. An utterly unique experience.

ALSEK RIVER - Alaska June 20 - July 3 $1900.
Raft the most scenic river in North America!
10 days on the water with rapids and glaciers, bears and eagles, moose and mountain goats. Spectacular hikes in Gods' most thrilling scenery, plus a helicopter portage around awesome Turnback Canyon.

GRANITE PEAK - Montana July 14 - 18 $500.
Climb the highest peak in Montana!
Learn and practice the basics of rock-climbing and mountaineering, then put them to use on this remote, semi-technical mountain in the Beartooth Wilderness.

KILIMANJARO - Tanzania July 25 - August 8 $3500.
Trek to the summit of Africas' highest peak! + park fees
Using the lesser-known Machame Route, we take a little longer to acclimatize to optimize our chances of reaching the 19,340' summit. Following the climb we'll go on safari to the great game parks of Tarangire and Ngorongoro.

RWENZORIS - Uganda August 7 - 21 $4000.
Hike and climb in the legendary Mountains of the Moon!
We will make several ascents of the peaks that are the farthest headwaters of the Nile, including Mt. Stanley,16,763', highest peak in the range. An optional gameviewing safari to the great game parks will precede the trip.
